Mobile: +91-8767885579

Skills Summary

- **Languages** : Python, SQL, JavaScript, C, HTML5, CSS3
- **Frameworks** : React.js, Flask, FastAPI, Bootstrap, Vite
- **AI/ML** : Machine Learning, Deep Learning, Generative AI, LLMs, RAG, Prompt Engineering, CNN, OpenCV, MediaPipe, YOLOv8, PyTorch, NumPy, Pandas, Matplotlib
- **Databases** : PostgreSQL, MySQL, SQLite
- **Tools** : Git, GitHub, VS Code, Jupyter Notebook, Postman, Power BI, Microsoft Excel
- **Web Technologies** : HTML5, CSS3, JavaScript, REST APIs
- **Concepts** : Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks
- **Soft Skills** : Problem Solving, Communication, Teamwork, Leadership, Time Management

Education

- **Savitribai Phule Pune University** — Pune, India
  Bachelor of Engineering - Artificial Intelligence And Machine Learning; CGPA: 9.47 — *August 2023 - July 2026*
- **Government Polytechnic Dharashiv** — Dharashiv,India
  Percentage: 80.60% — *July 2020 - June 2023*

Internship

- **ProAzure Software Solutions Pvt. Ltd.** — Remote
  RPA Intern
  - **Overview**: Developed and tested automation workflows using UiPath, improving process efficiency by 15%. Collaborated with cross-functional teams to identify automation opportunities and document business processes.
  - **Technologies Used**: UiPath, Robotic Process Automation (RPA), Workflow Automation, Process Documentation

Projects

- **SafeDrive OS** [**GitHub**]:
  Developed an AI-powered driver monitoring system for real-time detection of driver drowsiness, distraction, mobile phone usage, smoking, and seatbelt violations. Implemented computer vision pipelines using YOLOv8, OpenCV, and MediaPipe for real-time detection. Built REST APIs using FastAPI and integrated PostgreSQL database for efficient data management.
  Tech: Python, FastAPI, React.js, TypeScript, YOLOv8, OpenCV, MediaPipe, PyTorch, PostgreSQL

- **Medicinal Plant Classification using CNN** [**GitHub**]:
  Developed a deep learning-based application for medicinal plant identification using Convolutional Neural Networks (CNN). Implemented image classification to identify plants and provide information about diseases, symptoms, precautions, and medicinal uses. Developed a full-stack web application with user authentication and database integration.
  Tech: Python, CNN, Deep Learning, Flask, PostgreSQL, HTML, CSS, JavaScript

- **Food Delivery Time Prediction System** [**GitHub**]:
  Developed a machine learning model to predict food delivery time using customer, restaurant, and order-related data. Performed data preprocessing, exploratory data analysis, feature engineering, and model evaluation to improve prediction accuracy.
  Tech: Python, Machine Learning, Pandas, NumPy, Scikit-learn, Matplotlib

Publications

- **Medicinal Plant Classification Using Convolutional Neural Networks**:
  Published in Journal of Emerging Technologies and Innovative Research (JETIR), Volume 13, Issue 5, May 2026 (ISSN: 2349-5162). Developed a CNN-based deep learning approach for medicinal plant identification using leaf images with improved classification performance using Transfer Learning (ResNet50).

Certifications

- Deloitte Cyber Job Simulation - Certificate of Completion (Forage)
- Data Science and Analytics Certification - HP LIFE
- Power BI Beginner Certification - Simplilearn (Microsoft)
- Power BI Micro Course Certification - Satish Dhawale
